CUSTOMER PORTAL

Keep your customers informed. Customers are alerted everytime there is a change in their order in production process.

With all the collaboration between customers and all your departments (production, installation, design, customer service, etc) is directly visible to customers for their convenience.

Customers can see Invoicing, order status, approvals and collaboration.

QUOTES & PRICE ESTIMATOR

Easy to track your customer quotes and get an accurate quote in minutes of your cost and figure the selling price without any mistakes.

Give your customers exact quote and convert any quote to order is just a click away.

INVOICING & PRODUCTS

Create an invoice from any of your products and just print it out or download to email directly to customer.

Different forms associated with orders are also linked to each order which can be easily accessible anytime.

Access to reports - printable and downloadable.

Now creating products whether they are monuments (including installation charges), services or any other products is now super easy. You can also create Composites which is combination of any 2 or more products.

PURCHASING

Create, send and track your Purchase Order in the same platform. You don't need to shift to any other platform to do this.

The screenshot displays a web application interface for 'L&H Production'. The interface is organized into several sections:

- Order Entry:** Includes fields for Invoice No (1000), Order Date (12/23/2022), Last Name on Store (Nehal Shah 124), Invoice Closed Date (12/13/2022), and Type of Order (Memorial). It also features dropdown menus for 'Monument in Stock', 'Picture in Stock', and 'Design in House'.
- Collaboration:** Shows 'Order Status' (Design Dept) and 'Paper Location' (Normal).
- Add Task:** A table with columns for 'Date', 'Assigned To', 'Task', 'Dept', 'Created By', 'Open Date', and 'Task Status'. It lists tasks for dates 1/3/23, 1/11/23, and 1/30/23.
- Production:** Contains 'Templater Info' (12/23/2022), 'Final Date' (1/10/2023), and 'Person Made' dropdowns.
- Installation:** Includes 'Install Who' (N/A), 'Cemetery Plot' (Yes), and 'Cemetery Called To Pay' (Yes).
- Order Info:** A summary table at the bottom.

Product #	Product Name	Qty	Client Price	Amount	Install	Install Amount	Total	Details
330	4051-054-BASE-MILSTONE	1	\$3.00	\$3	\$700	\$700	\$703	

PRODUCTION, INSTALLATION & CEMETERY DB

Production & Installation department can access these sections and update regularly as the order moves forward. Customer is notified for any change in status of these.

Store cemetery data in its own database and check whenever you need to know anything regarding any cemetery. GPS Co-ordinates and Google Maps are easily accessible.

COLLABORATION

Collaboration - One place to manage the whole order.

Send email to customers for any approval or request. View the chain of emails sent.

Assign task to your team and update the status of the task.

Upload and send images to customers or vendors for approval.

Keep track of records of any conversation between your team and customer in Correspondence section.

The screenshot displays the 'Edit Collaboration' interface. At the top, there is a navigation bar with options like 'Home', 'Users', 'Quota', 'Orders', 'Inventory', 'Product', 'Collaboration', 'Production', 'Installation', 'Purchasing', 'Accounting', 'Eq Maintenance', and 'Setting'. Below this, the interface is divided into several sections:

- Order Form:** Includes fields for 'Order Date' (12/23/2022), 'Invoice No' (10005), 'Email' (robert.robert@gmail.com), and 'Date Promised' (12/23/2022).
- Store Location Info:** Shows 'Store' as 'MIDWEST STORE' and 'Salesperson' as 'Robert'.
- Family Information:** Lists 'Last Name or Store' as 'MIDWEST 1234', 'Customer Contact' as 'Robert', and 'Phone' as '555-555-5555'.
- Product Table:** A table with columns: Product #, Product Name, Qty, Client Price, Amount, Install, Install Amount, Total, and Details. It contains one row: '230', '4001 0014 8400 WELPONE', '1', '\$9.00', '\$9', '\$700', '\$700', '\$700'.
- Notes:** A section for adding notes.
- Task Collaboration:** A table for managing tasks with columns: Date, Assigned To, Task, Dept, Created By, Close Date, and Task Status. It shows three tasks assigned to 'Search Collaborator' with statuses 'Pending', 'Pending', and 'Pending'.

EQUIPMENT & MAINTENANCE

Keep track of all your equipments in one database and helps track your equipment maintaining schedules.
